

Section 11. Drainage Structures. Unless first approved by the ARB and the District, no Owner other than the Declarant may obstruct, alter or in any way modify the method and/or structures of drainage utilized or installed by Declarant or the Association from, on or across any Lot, Common Property or easement area; nor shall any structure or material be erected, placed or maintained which shall in any way obstruct such drainage devices or facilities or impede their efficient operation. No elevation changes shall be permitted on any Lot which materially adversely affect the drainage of or to neighboring Lots or the Common Property.
